Re: Thank you Letter.

From: World Emergency Relief Central America.

Appreciated board of directors of Canadian Food For Children:

In behalf of the board of directors of WER-CA and in behalf of all those we serve to, I want to extend to you our deepest thank you expressions for your great donation of food we just received.

This significant contribution will support our feeding children program we have in different elementary schools in the rural area of Honduras, feeding 1050 (one thousand fifty) children at day, plus several hundreds of families living in the slums around Tegucigalpa.

The need in this area of the world is enormous, but with the efforts and contributions of persons and foundations as yours, education and a lot of encouraging we will defeat the hunger, ignorance and poverty in our communities hopefully in our life time.

Your in service

Dr. Claudio Casas

Executive Director

World Emergency Relief CA
